

Working together to protect our community from vaccine preventable diseases.

Who We Are

The Bucks County Immunization Coalition (BCIC) represents over 30 organizations including health care providers, public health professionals, medical associations, non-profit organizations, and educators. We are working together to improve immunization rates of Bucks County, Pennsylvania residents across the lifespan through education, outreach, and partnership.

BCIC's Current Goals

- Grow and sustain an effective coalition.
- Increase public & provider education on the importance and benefits of immunizations across the lifespan.
